- The 8mm Domestik range is competitively price and perfectly suited for domestic applications.
- The lightly embossed woodgrain surface creates a warm, realistic wood finish.
- The use of Travi-Lay Black (sound reducing underlay) is highly recommended.
- 8 x Décors are available with colour co-ordinated skirtings, scotia's and profiles.
- Domestik is produced to the highest standards of the European Producers of Laminate Flooring and Approved by SAWLFA.
- The use of the 'Aqua Stop' core board offers a lower swell rate than regular laminates.
- 1 click 2 go pure, the latest innovation in locking systems, will significantly reduce installation time.
