- 100% Waterproof
- The new 6mm core with its 1,5mm IXPE backer entrenches the Traviloc as the most stable SPC flooring on the market
- Strong, rigid and dimensionally stable, installs up to 20m x20m without expansion profiles  
Installs over most existing hard surfaces, including ceramic tile
- No telegraphing from minor subfloor imperfections
- No acclimatisation required in residential applications
- Use of moisture barrier required
- Double UV, scratch resistant surface coating now comes in an "ultra matt" finish, gives Traviloc an unmatched, authentic, wood plank look.
- Extra Long , wide planks with high definition visuals and rich surface textures deliver a natural appearance
- Importantly, for user safety, Traviloc XL-RCB PLUS is formaldehyde free and is both CE and Floorscore accredited in terms of indoor air quality. As such it is suitable for all medical, school, residential and commercial installations.
